

How to Reserve Paved Paddock Parking for the NASA National Championship at Mid Ohio Sports Car Course September 11-17, 2006

Please follow the directions listed below:

1. Review the paddock map posted on the NASA National Championships forum or NASA Championships website
2. Choose the location (Area 1, 2, 3, or 4) you'd prefer. Please give us more than one choice as paved parking is available on a first come first served basis.
3. Determine the amount of space (square footage) you'll need.
4. Send your request with email, phone, mailing address and all pertinent paddock information by email to Mary Wier at the Mid Ohio Sports Car Course: mwier@midohio.com
5. Paved Paddock space costs \$1.00 per square foot of paved area required to hold your car, trailer and awning. Oversized tow vehicles may be required to pay for space used.
6. We will update the facility map periodically to reflect available space.
7. You will be invoiced after the event.

Questions? Please contact Bryan Cohn at bcohn@drivenasa.com
